i must to say that the idea of writing this book is based in one attempt of we searching one new way in the marketing we know the industrial marketing services marketing international marketing several kind of marketing but the participative marketing is one idea developed by us in the sense of contribute with the growing of brazilian marketing management

the recent concept of 2 0 a consequence of 2 0 discusses the emergence of a new style emancipated from the which finds applications in all areas of social activity management innovation education organization territory etc this book considers the implications of the changing paradigm for competitive economic and territorial intelligence applied to innovation value creation and enhancement of territories competitive intelligence is therefore in the 2 0 and its values perpetual beta user generated content social relations etc horizontality a renewed legitimacy this book collecting contributions from international experts testifies to the heterogeneity and richness of possible approaches it provides a totally new way of evaluating the impact of 2 0 with concrete examples while analyzing the theoretical models allowing the reader to develop in other contexts the described cases of success

first published in 1993 latin america is undergoing a process of profound economic and social change the industrial import substitution that continued for several decades was quantitatively successful in terms of industrialization but like inward oriented industrialization in the socialist countries failed to raise the economies of the region to international productivity levels the attempt at catch up industrialization outside the reference frame of the world market led to economic stagnation social crises serious environmental degradation and the obstruction of social development the following papers included in this book show that the development of competitive advantages is initially determined by the new macro policy and by modernization at enterprise level

a manifesto on managers and hierarchy that bucks the trend of the lean flat leaderless organization as business struggles to adapt to a rapidly changing world managers are bombarded with a bewildering array of schemes for how to be a boss and make an organization tick it s tempting to be seduced by futurist fantasies where every company has the culture of a startup and where employees in wacky whimsical office settings liberated

from hierarchies and bosses that oppress them are the foundation for breakthrough performance get real warn nicolai j foss and peter g klein these fads ironically lead to micromanaging and often to disaster companies and societies they show need authority and hierarchy to coordinate work including creative work and counterintuitively foss and klein illustrate how the creative use of authority and hierarchy helps companies to be more agile and flexible enabling educated motivated people and teams to thrive and not a moment too soon foss and klein provide evidence that global challenges such as the proliferation of artificial intelligence economic disruption empowered knowledge workers and black swan events such as the pandemic actually make hierarchy and the job of the manager more important than ever

the metropolitan region of campinas made by 19 cities concentrate expressive part of paulista pib due to the strong presence of entrepreneur of economic importance that need of professional with good scientific and technologic base this is the reason of this book written by several writers this population is able to learn how to learn and enabled to solve problems aggregate new knowledge campinas is drawn as one futurist and dynamic city the region is one of most dynamic and important in the economic and social brazilian scenery it has more than 2 600 000 people and it s the 9th big metropolitan region of brazil recently the exam magazine published some statistic about important brazilian cities and campinas is among them the technologic evolution in the area of microelectronics computers special aeronautic fine mechanic robotic and computation has permitted increase the industrial activities having as result the modernization of industrial park and in their adequacy to the production of goods with improvement and increasing reliability innovation creativity management technology and the generations are important things to the society come from xxi century and this book undeniably come to contribute to our knowledge about this generation
